PROFESSIONAL SUMMARY

Results-driven software engineer with over 7 years of experience in designing, developing, and maintaining scalable web applications. Proficient in multiple programming languages including Python, Java, and JavaScript. Adept at collaborating with cross-functional teams to deliver high-quality products on time. Passionate about leveraging technology to solve real-world problems and continuously learning new skills. Seeking to contribute my expertise to a forward-thinking company like [Github.com].

Work Experience

- ❖ Senior Software Engineer

- ❖ Tech Solutions Inc. , Chicago, IL — June 2018 – Present

- ❖ Led a team of 5 developers in the design and implementation of a cloud-based SaaS platform, resulting in a 30% increase in customer retention.

- ❖ Developed and maintained RESTful APIs using Python and Flask, improving system performance by 20%.

- ❖ Collaborated with UX/UI designers to implement responsive front-end interfaces using React.js, enhancing user satisfaction by 25%.

- ❖ Mentored junior developers, providing guidance on best practices and code reviews.

- ❖ Software Engineer

- ❖ Innovative Tech Corp. , San Francisco, CA — January 2015 – May 2018

- ❖ Designed and developed full-stack applications using Django and AngularJS, reducing development time by 15%.

- ❖ Integrated third-party APIs for payment processing and data analytics, increasing revenue by 10%.

- ❖ Implemented automated testing frameworks using Selenium and Jest, reducing bugs by 35%.

- ❖ Participated in Agile Scrum meetings, ensuring timely delivery of project milestones.

- ❖ Junior Software Developer

- ❖ Web Development Co. , Austin, TX — July 2012 – December 2014

- ❖ Assisted senior developers in building e-commerce websites using HTML, CSS, and JavaScript.

- ❖ Conducted unit tests and debugging sessions to ensure code quality and functionality.

EDUCATION

Bachelor of Science in Computer Science

Adekunle Ajasin University Akungba Akoko Ondo State Nigeria— May 2025

Relevant coursework: Data Structures, Algorithms, Database Systems, Web Development.

Dean's List (2023-2025).

Skills

- ❖ Programming Languages: Python, Java, JavaScript, SQL

- ❖ Frameworks & Libraries: Django, Flask, React.js, AngularJS

- ❖ Tools & Technologies: Git, Docker, AWS, Jenkins, Selenium

- ❖ Soft Skills: Team Leadership, Problem Solving, Communication, Time Management

Projects

- ❖ Personal Finance Tracker

Developed a web application that allows users to track their income and expenses. Built using React.js for the front end and Django for the back end. Deployed on AWS using Docker containers.

- ❖ E-commerce Platform

Created an online store for small businesses using Shopify API and custom-built features such as inventory management and order tracking. Increased sales by 20% within the first 6 months

Volunteer Work

- ❖ Coding Mentor

- ❖ Mentor aspiring developers in coding bootcamps, helping them build portfolio projects and prepare for technical interviews.

- ❖ Organize monthly workshops on topics such as web development and data science.
